PROFESSIONAL SUMMARY

I am a dedicated Computer Science professional seeking opportunities to expand my expertise in ERP development and data science while contributing to innovative solutions. Committed to leveraging my technical skills and experience to deliver exceptional value while continuously growing as a professional.

PROFESSIONAL EXPERIENCE

Senior Python Odoo Developer:

Metamorphosis Ltd. (*June 2022 – Present*)

- Lead the development of custom Odoo ERP solutions, focusing on client-specific requirements and business process optimization
- Design and implement scalable modules using Python, JavaScript, XML, and CSS
- Collaborate with stakeholders to gather requirements and translate business needs into technical specifications
- Architect and develop workflow automation solutions to enhance operational efficiency
- Manage end-to-end development lifecycle from conceptualization to deployment

Junior Developer (Probation):

Itqan Analytics & Software Limited (*November 2021 - April 2022*)

- Participated in software development projects focusing on analytical solutions
- Applied programming fundamentals to solve real-world business challenges
- Developed proficiency in various development tools and methodologies

Data Analyst & Group Travel Coordinator:

Itinerary Holidays (*March 2021 - November 2021*)

- Analyzed business data generated from different tours and events to make decisions
- Organized and hosted corporate and group tours.

EDUCATIONAL QUALIFICATION

Passing Year	Degree	Institute	Department	GPA
2021	B.Sc	Daffodil International University, Dhaka, Bangladesh	Computer Science and Engineering	3.53 / 4.00
2017	HSC	Abdul Kadir Mollah City College, Narshingdi, Bangladesh	Science	5.00 / 5.00
2014	SSC	Gana Bangla High School, Narayanganj, Bangladesh	Science	5.00 / 5.00

SKILLS & TECHNICAL PROFICIENCY

Technologies:

- **Programming Languages:** Python, JavaScript, XML, Bash, OWL, PHP, Java, C, Qweb
- **Web Technologies:** HTML5, CSS3, REST APIs, FastAPI, Web scraping
- **Frameworks:** Odoo, Streamlit, Django, Flask
- **Databases:** PostgreSQL, Mysql, SQL, SQL Lite
- **Machine Learning:** NumPy, Pandas, OpenCV, Tensorflow, Matplotlib, Pytorch
- **Operating Systems:** Linux, macOS, Windows
- **Version Control:** Git, GitHub
- **Design Tools:** Adobe XD, Figma, Adobe Illustrator, Premiere Pro, Photoshop, Lightroom

Professional Skills

- Strategic problem-solving
- Technical architecture design
- Business process analysis
- Team collaboration
- Agile methodology
- Clear technical communication

KEY PROJECTS

Project	Description	Technologies
<u>Image Processing Tool Application (Streamlit App)</u>	Developed a tool for background removal and image manipulation with advanced features like alpha matting, flipping, and resizing with a specific ratio.	Python, Streamlit, Pillow
<u>A Python Library to Comment Out Functions Using Decorators. (library)</u>	Published a Python decorator on PyPI to ignore the interpretation of any function and treat it as commented code.	Python
<u>Bangladesh-India Tailored Extended Amount to Words focused on the local numeric system.</u>	Created a Python library to convert numerical amounts into words following Bangladeshi and Indian numeric systems (lakh, crore). Features customizable prefixes, suffixes, and separators.	Python depends on num2words
Odoo E-commerce Review Management System	Engineered a review system with workflows, analytics, approval layer, and moderation tools in Odoo eCommerce.	Python, Odoo, PostgreSQL
Automated Database Backup Solution	Designed an automated SQL backup and restoration system using Bash scripting.	Bash, PostgreSQL

THESIS

Machine Learning-Based Unemployment Prediction and Analysis (January 2021)

- Developed predictive models to analyze unemployment trends using machine learning.
- Extracted patterns from datasets through data mining and statistical analysis
- Delivered actionable insights and successfully defended findings before the academic committee.

AREAS OF INTEREST

ERP Solutions | Machine Learning | Artificial Intelligence | Data Science | Technical Mentoring
| Open Source Contribution
